

## Linearity

Reference line should be flat and horizontal

## Homogeneity of Variance

Reference line should be flat and horizontal

## Influential Observations

Points should be inside the contour lines

## Normality of Residuals

Dots should fall along the line

## Normality of Residuals

Distribution should be close to the normal curve

## Normality of Random Effects (filename:target\_name)

Dots should be plotted along the line

## Normality of Random Effects (filename)

Dots should be plotted along the line

## Normality of Random Effects (target\_name)

Dots should be plotted along the line
